

**MAIN FEATURES**

1. Machine body is made of aluminium alloy
2. Compact structures.
3. It uses permanent magnet wheel absorbed on the steel tube to make creeping cutting horizontally, vertically or upwards.
4. This machine takes the advantages of extremely sound cutting circumference and easy operation etc. with groove to 1.V45
5. Widely used for the cutting of steel tubes in petroleum and chemical pipeline engineering.

**CG2-11  
MAGNETIC  
PIPE CUTTER**

**AW CG2-11 MAGNETIC PIPE GAS CUTTER**

**PRODUCT DESCRIPTION**

VOLTAGE	AC 220V / 50Hz
CUTTING THICKNESS	6 ~ 50mm
CUTTING SPEED	50 ~ 750 / mm / min
OVERALL DIMENSION	350 x 240 x 220 mm
WEIGHT	23.5kg
DIAMETER OF CIRCLE CUTTING	> 108mm
