

### AW Multi Purpose Hi-Lo Gauge #1

### AW Single Purpose Hi-Lo Gauge #2

#### ▶ AW MULTI PURPOSE HI-LO GAUGE #1

#### ▶ AW SINGLE PURPOSE HI-LO GAUGE #2

##### PRODUCT DESCRIPTION

- Measurement Scale: Metric
- Root Weld Space
- Eliminates Rejects - Improves Productivity
- Internal Misalignment

#### AW TAPER GAUGE 0 - 15MM

##### PRODUCT DESCRIPTION

- Suitable for internal diameter determination aperture measurement & clearance measurement for diameters of small holes, slots etc.
- Accurate figures & increments are etched into surface, easy to read
- Polished, bright & clean without burr rust laser engraved line & will not rub off
- The structure is simple & reasonable, easy to measure. Place the gauge on clearance or aperture & read the measured value
- Made of stainless steel, miniature & light weight easy to carry

#### AW WELDING GAUGE MG-1/HJC40B

##### PRODUCT DESCRIPTION

- The product mainly consists of a main scale, a slider and a multi-purpose gauge.
- It is a weld detection gage used to detect the bevel angle weldments, the height of various weld lines, weldment gaps and the plate thickness of weldments.
- This product is made of stainless steel, with reasonable structure and beautiful appearance, which is easy to use.

#### AW WELDING GAUGE HJC40

##### PRODUCT DESCRIPTION

- Check Butt Weld Height
- Check Weld Leg
- Check Weld Throat
- Check Width of Weld Seam
- Check Bevel Angle
- Check Gap Size

## AW WELDING GAUGE V-WAC TYPE

### PRODUCT DESCRIPTION

- Check Undercut
- Check Crown Height
- Check Porosity
- Check Pits
- All Stainless Steel

## AW WELDING GAUGE HG012

### PRODUCT DESCRIPTION

- Measures internal alignment of pipe after fit-up/alignment, cuts radiographic rejects
- Measures internal misalignment of pipe before & after tracking
- **Measurement Scale:**  
Inches on one side & metric on the opposite side

## AW WELDING GAUGE MG-8 (CAM-BRIDGE)

### PRODUCT DESCRIPTION

- Bead stride width: 53mm
- Beveling angle range: 0 - 70°
- High quality stainless steel (SUS304) blades to resist rust and for longer life
- For wide variety welding measurement:
  - \*Height of bead weld
  - \*Throat thickness of fillet weld
  - \*Beveling angle
  - \*Root opening
  - \*Height of fillet weld
  - \*Under cut depth
  - \*Plate thickness
  - \*Round bar thickness

## AW WELDING GAUGE MG-11 (FILLET WELD)

### PRODUCT DESCRIPTION

- For inspection of concave or convex fillet welds
- Set of seven blades
- All sizes & numerals are Laser etched into the surface for clarity & easier reading
- Blades are deburred for fine & smooth edges
- High quality stainless steel (SUS304) blades to resist rust & for longer life
- permits quick & accurate measuring of the most popular weld fillet sizes in inches & metric 1/8" - 1" (3.2mm - 25.4mm)
