

The new generation and cost-effective

ARC 188E

Economical, Excellent, Affordable, Portable, Extremely Small Package

- Equipped with RILAND self-developed RICH1 chip and use the latest high grade IGBT technology..
- Wide range input voltage: 220V±15%.
- Intelligent protection for over-loading and over-heating.
- Anti-stick function built-in, preventing against over loading the unit and easing removal of the electrode.
- Fan as needed, reduces noise and dust inside the machine.
- Non-stop welding for 2.5mm electrode, can welding 3.2mm diameter electrode.
- Compact and portable (1.5Kg) with adjustable shoulder strap.
- Suitable for power tools, maintenance, installation, etc. requirements.

Control panel

Simple and easy to understand front panel design, just only one knob for welding current pre-setting. Two indicators for work status display.

*Digital display can be customized.

*The picture is for reference only, please refer to the actual product.

Base Units Include

- 1 PC inverter power source , include an 220V input cord with power plug.
- 1 PC Stick electrode holder, 1.8m cable with Euro plug.
- 1 PC Earth clamp, 1.2m cable with Euro plug
- 1 PC Handhold Welding Mask
- 1 PC Steel brush-Hammer
