

WRC-300A WATER COOLER

DESIGNED WITH WATER-COOLED SYSTEM TO OPTIMIZES YOUR WELDING PERFORMANCE WITH MORE RELIABLE FOR CONSUMABLE .

MAIN FEATURES

1. No Priming Requires
(Prolong the life of water cooling torch & tungsten electrode)
2. Quick Fill In & Drain Out
3. Simple Maintenance
4. Visible Water Tank
5. Economical, Practical and Compact Cooling Water Tank.
6. Easy Operation, Compact & Portable
7. Excellent Design for Ventilation
8. Built-in Independent Fan, Strong Wind, More Stable heat Dissipation Performance.
9. It Has Overcurrent Protection Function to Ensure Long Time Usage.

TECHNICAL PARAMETER (SPECIFICATIONS)

Item Code #	: A52L0000020
Main Voltage	: 230V (50/60Hz)
Phase	: 1 Phase
Cooling Capacity	: 1.6KW (1L/Min)
Motor	: 260W
Max Pressure	: 0.3MPA/60Hz
Operation	: -20°C ~ 60°C
Weight	: 14KG
Dimensions (mm)	: 450 x 250 x 355
Remarks	: 2R CU 24cm x 29cm
