

Power MIG 350GF

Economical, Excellent, Flexible, Professional

The Power MIG 350 series have excellent performance which your best economical choice!

Processes

- MIG
- Stick

Industrial

Output

Input

www.ace-weld.com

- IGBT technology, the core adopts advanced IGBT inverter device.
- Infinite Voltage Control with optimized starting performance.
- Inductance Control for arc stability and spatter control.
- Digital Meters - Voltage and Amperage; Preview and Hold capability.
- Wire size and type selection, Help you match the welding parameters quickly.
- Dust-Free cooling system, Enhance higher Duty Cycle.
- Trigger Control - 4T (Latch) eliminates operator fatigue.
- Overload Protection - Shuts down the power source to protect the internal electrical components from overheating.

Model	Input voltage/Phase/Frequency	Output current/Voltage/Duty cycle	Amps Input at Rated Output	Output range/OCV	Dimension	Weight
MIG350GF	415V/3P/50-60HZ	MIG: 350A/31.5V/35%@40°C 250A/26.5V/100%@40°C MMA: 350A/34V/30%@40°C 250/30V/100%@40°C	25.8A@350A	60-350A/61V	515×262×468(mm)	30kg
